MEB SOURCING

GLOBAL TRADING

We care about your brand

We offer only high quality branding trims and use only those approved by our clients.

Our team will present you trim samples of different options so you could select and approve best one.

Our team provide consulting services for local accessories and the production possibilities of different trims locally.

MEB SOURCING

GLOBAL TRADING

We care about quality of our fabrics

Using premium materials is the most crucial factor in creating high quality collections for our customer brands.

We work with the best fabric suppliers in the country and we always offer high quality for the honest price.

Our team provide experienced technical consulting services to our customers being a guide in the turkish fabric market.

We provide quality control

We provide multiple quality control sessions to our bulk orders, these are inline quality control and final quality control sessions.

These sessions are accomplished by our team on each step of bulk production starting cutting and sewing to the final trimming and packaging.

Our clients can use our services for Quality Inspections as well as third party inspections.

MEB SOURCING

GLOBAL TRADING

Samples are the main part of product development process.

While developing samples we pay a lot of attention to all details in order to obtain correct fit and general look that could reflect the bulk production.

We check the samples for labourship quality, construction details, fit measures and the trim applications before we send the correct sample to our customer.

Our team will always be here to answer your questions and provide technical support in product development process.
